

Testimonials

"I just wanted to tell you guys how awesome your water is, we can seriously taste the difference, when I get a different water from a shop or service station it just tastes so gross compared to Montville Mist... it's almost like you can taste the chemicals in the other water... so I am SO glad I can drink your delicious water!!!

Even my partner Lee said the same thing the other day, so we are really grateful to have access to your water, THANK YOUUUU guys!!!!!!!!!!!"

Warm regards,
Your VERY happy and hydrated water drinkers -
Olivia and Lee :D

"When you taste this you will be amazed it's like getting an Organic Orange and realizing that oranges did taste like this a long time ago and the water is the same it has a fresh taste (one of our staff said the other day when you have a glass of the water it just makes you want to go and get another one as it taste so good.)

My husband was the first to admit that he did not realize that our tap water tasted so bad and how much more water we drink now by having the Montville Mist Spring water in our home."

Gold Coast

"I am really enjoying your water - it tastes so much better than the filtered water I have been drinking. Its remarkable".

Many thanks,
T. Jackson
Sunshine Coast

"The entire staff at NEXUS Magazine drinks Montville Mist Springwater. In fact we had it delivered to our annual conference this year so that our 500+ participants could drink mineral-rich, non-chlorinated, non-fluoridated water.

We value our health, as do our readers, and we all know that fluoride and chlorine-free water is no replacement for fresh water straight out of the ground"

To Whom it May Concern,

We have been using the services of Montville Mist Spring Water for the past 6 years. The owners, Peter and Alison Collins have been a fantastic addition to the local service community of Montville and we have built up a great friendship with them throughout the years.

Running a Real Estate business in Montville, we enjoy Montville Mist Spring Water through a cooled stand alone system. This unit is utilized and enjoyed by our customers visiting our front reception plus our staff members to keep their fluids up throughout the day. Peter is always happy to accommodate with any request and has helped us out on any occasion when we have run short of supply.

Several of our staff members also choose to purchase Montville Mist Spring Water for personal use in their homes and Peter is always happy to deliver the water to the office.

Please feel free to contact our office if you are thinking of using the services of Montville Mist Spring Water and would like a personal reference.

Yours sincerely,

Roger Loughnan
